14th October 2026

Title: Final Meeting and Polish

Time: 12pm to 2pm

Location: WS313-314

Author: Sofia Malveda

Present Attendees

- Jean-Ray Durand
- Sofia Malveda
- Benjamin Le

***No absentees*.**

Agenda

- Update on progress
- Final read-through the website
- Final changes and polish

Discussion

Briefly discussed where we're at for each of our pages: • Jean-Ray had taken on the task of and finished up the risks page, including some of Benjamin's input • Sofia finished referencing and is polishing up Everyone's parts have an image and content is live on the website. A few links need to be made active in sources with <a> tag.
Final read-through done by Jean-Ray and Benjamin, ensuring consistency of ideas and sentences are grammatically correct. Some issues identified were: • Missing references • A few spelling mistakes • Fixed issues with figures

All issues were dealt with the contribution of the whole team

Action Items

Task	Due Date	Owner
Upload and submit final website	14/10/2026	Sofia Malveda

7th October 2026

Title: Project Catch-up

Time: 12pm to 2pm

Location: WS313-314

Author: Sofia Malveda

Present Attendees

- Jean-Ray Durand
- Sofia Malveda

Absentees

- Benjamin Le

Agenda

- Update on progress
- Clarify meeting minutes, image usage and website customizations

Discussion

Briefly discussed where we're at for each of our pages: • Jean-Ray up to referencing • Sofia finished referencing and is polishing up – her part has been put on the website including an image Further contact with Benjamin will be initiated to ensure he keeps up to date with our progress.
Decided how we'll do the images Asked TA about meeting minutes – confirmed this format is good, images from article are fine to use as long as you use a citation, can customize website however we like as long as we hit the requirements.

Action Items

Task	Due Date	Owner
Polish off Opportunities section	7/10/2026	Sofia Malveda
Write and reference Risks section	14/10/2026	Benjamin Le
Write and reference Choices section	14/10/2026	Jean-Ray Durand
Add all content and style website	14/10/2026	Sofia Malveda

Next Meeting: 14/10/2026 at 12pm

30th September 2026

Title: Beginning Website and Parsing Research

Time: 12pm to 2pm

Location: WS313-314

Author: Sofia Malveda

Present Attendees

- Jean-Ray Durand
- Sofia Malveda

Absentees

- Benjamin Le

Agenda

- Begin researching and parsing information for website
- Allocate pages and topics for each person

Discussion

Sofia has already compiled some backup resources that cover the topic in detail (specifically regarding whether telesurgery closes the healthcare gap), however, each person will also find their own sources to better support their part of the website. Have also confirmed with TA that sources must be reputable and from AUT Library or Google Scholar.
Caught up on the work we've each started: Sofia started streamlining the workflow from research to website through a shared doc due to difficulties of merging edits on the website. All website edits should be done by the **end of next week.** Split up the work for each major page (one per person); the topic page will be based on our presentation: • Jean-Ray will take the Choices page • Sofia will take the Opportunities page • Benjamin will take the Risks page

Jean-Ray has communicated all of this into the shared chat for reference and to keep Benjamin informed of what we need to do.

Action Items

Task	Due Date	Owner
Write and reference Opportunities section	7/10/2026	Sofia Malveda
Write and reference Risks section	7/10/2026	Benjamin Le
Write and reference Choices section	7/10/2026	Jean-Ray Durand

Next Meeting: 7/10/2026 at 12pm

22nd September 2026

Title: Practicing Presentation

Time: 12pm to 1pm

Location: WG410

Author: Sofia Malveda

Present Attendees

- Benjamin Le
- Jean-Ray Durand
- Sofia Malveda

***No Absentees*.**

Agenda

- Practicing script
- Editing and polishing the presentation

Discussion

Benjamin pulled through with a slide design. Group decision of combining the slides both Sofia and Benjamin made, adding details from Sofia's into Benjamin's new design. Basic edits done. Benjamin to finalise before presentation on the 23rd September 2026.
Jean-Ray printed the script and all went over the script as if presenting. Time came to 2 minutes 15 seconds. Came to agreement that reaching close to 3 minutes would be ideal. A few lines were added to each script for each person. Jean-Ray added depth to the intro, Sofia added a context example of the Lindbergh operation in 2001, and Benjamin added team contract rules we agreed upon. Time came to 2 minutes and 45 seconds on final run through.

All agreed to finalise edits on their script prior to the 23rd September so Jean-Ray can reprint before presentation.

Action Items

Task	Due Date	Owner
Edit script intro	23/09/2026	Jean-Ray Durand
Edit script context	23/09/2026	Sofia Malveda
Edit script role outlines	23/09/2026	Benjamin Le
Polish and submit presentation	23/09/2026	Benjamin Le
Research and compile sources	30/09/2026	Sofia Malveda

Next Meeting: 30/09/2026 at 12pm

16th September 2026

Title: Finalising Script and Presentation

Time: 12pm to 2pm

Location: WS313-314

Author: Sofia Malveda

Present Attendees

- Jean-Ray Durand
- Sofia Malveda

Absentees

- Benjamin Le

Agenda

- Go over and polish script
- Confirm design for the slide presentation
- Clarify duration and whether there are additional parts to presentation (such as Q&A)

Discussion

Went over the script Jean-Ray had made, finalising the points made and ensuring that they followed the required structure of: ○ Your chosen technology topic, ○ Briefly describe your topic, its relevance and importance, ○ Why you have chosen it, and ○ Outline your team members' roles and responsibilities Agreed on the final inquiry question to be as stated in the script: '*does telesurgery actually close the healthcare gap, or does it deepen it, by concentrating advanced care wherever the infrastructure already exists?*' **Final script will be printed by Jean-Ray and team will meet prior to presenting to practice.**

Clarified the duration (5min max, 1min min) with the TA and that there is no Q&A after our presentation

Jean-Ray decided to extend the script slightly to better encapsulate all the points and maximise efficient use of the time limit. This included lengthening and sharpening transitions about the relevance, importance and reasons for choosing the topic.

Roles are also better defined and responsibilities are crisply stated.

As Benjamin is absent, Sofia and Jean-Ray decided for Sofia to make a backup slide

- Confirmed what info slide needs
    - Topic description
    - Relevance
    - Importance
    - Why chosen?
    - Outline group roles (Leader and Editor — we added programmer, everyone is part of research)

Made the slide on Canva, using their elements and then uploaded the version as a pdf into the shared PowerPoint so Benjamin can see.

Jean-Ray will communicate with Benjamin to keep him looped in the project.

Action Items

Task	**Due Date**	**Owner**
Print and organize script practice	22/09/2026	Jean-Ray Durand
Research and compile sources	30/09/2026	Sofia Malveda

Next Meeting: 22/09/2026 at 12pm

9th September 2026

Title: Kick-Off

Time: 12pm to 2pm

Location: WS313-314

Author: Sofia Malveda

Present Attendees

- Benjamin Le
- Jean-Ray Durand
- Sofia Malveda

***No Absentees*.**

Agenda

- Deciding on a topic
- Assigning roles
- Setting up the proposal slide
- Initial research

Discussion

Decided on topic Used topic funnel AI to help narrow down our focus from Computers in medicine and healthcare and sort out the initial indecision between choosing bionic or robotics
Started looking for sources using Google Scholar and other databases These are compiled on the slides currently
Started making slide - Confirmed what info slide needs   - Topic description   - Relevance   - Importance

○ Why chosen? ○ Outline group roles (Leader and Editor — we added researcher, though, everyone is part of parsing the research)
Defined an inquiry question (What and how do we implement remote surgery?) Could be further defined to make a more inquisitive question but all agreed it serves as a starting point

Action Items

Task	**Due Date**	**Owner**
Designing slide	16/09/2026	Benjamin Le
Write and polish script	16/09/2026	Jean-Ray Durand
Research and compile sources	30/09/2026	Sofia Malveda

Next Meeting: 16/09/2026 at 12pm
